ALETHEA

*55*

*ALETHEA*

# *Foreword*

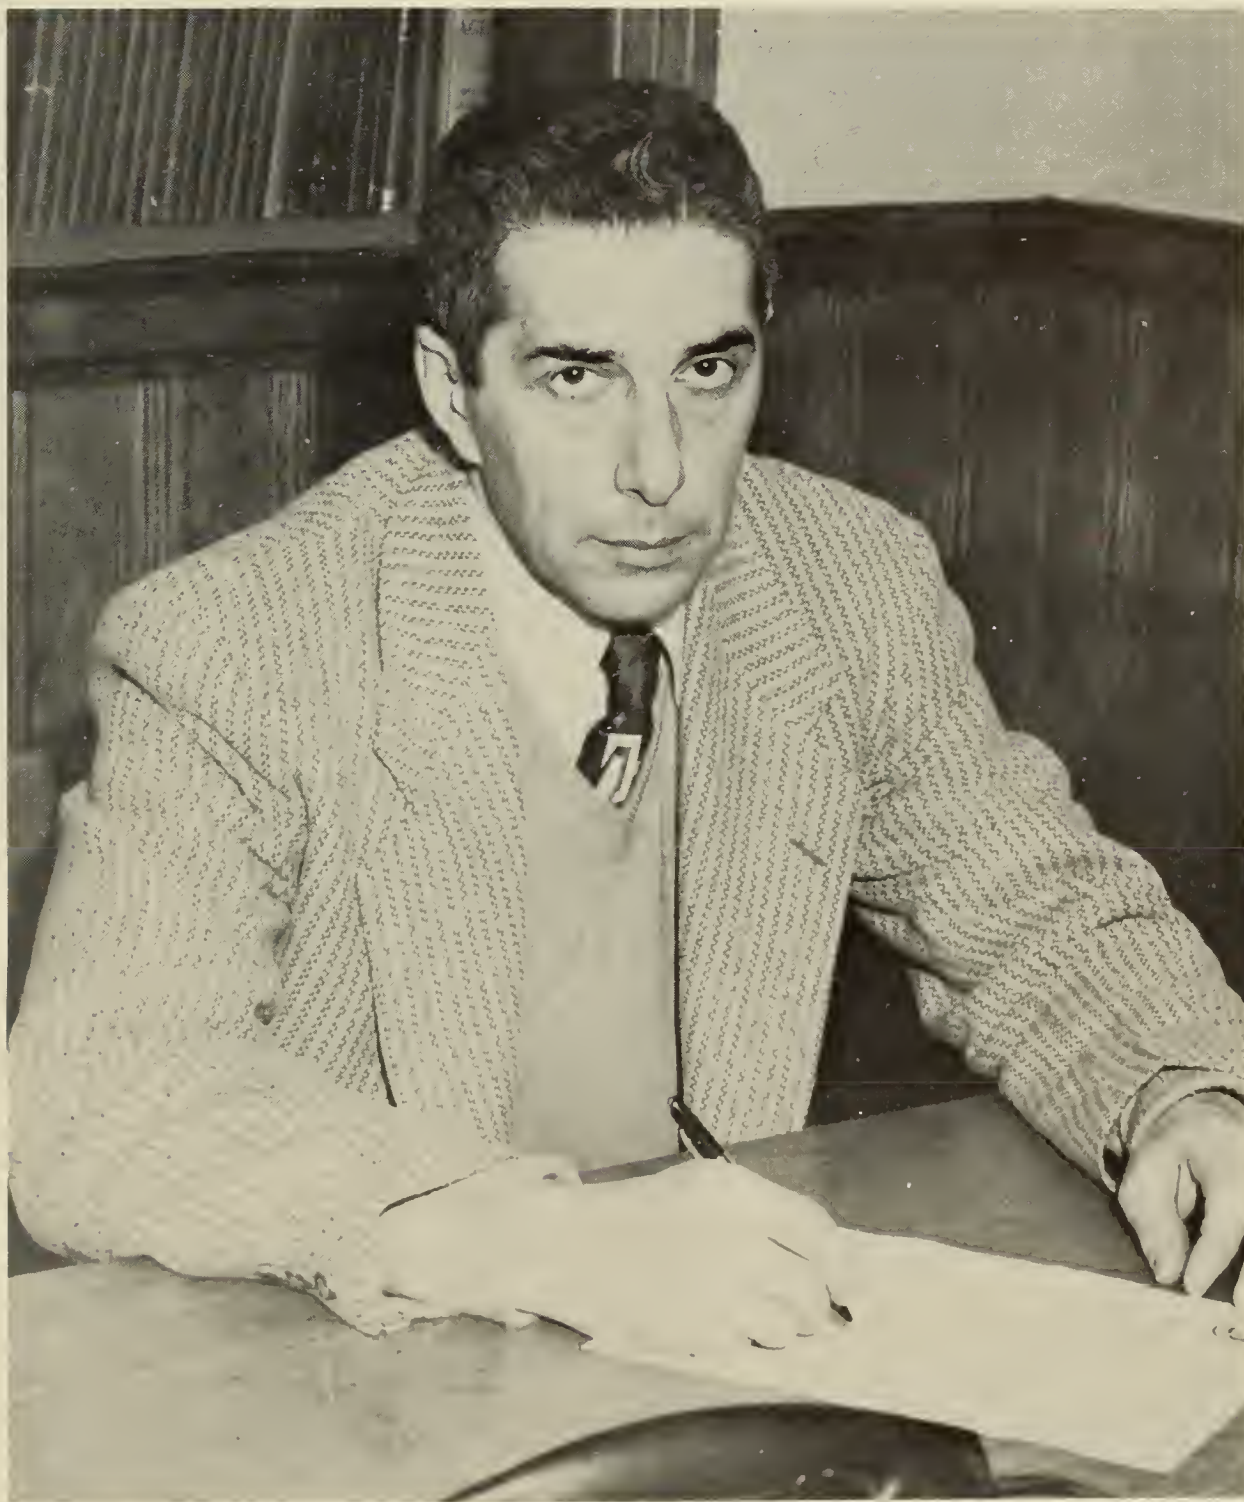

To the class of 1955, who are about to embark upon your life in the world, a life which will merit you bliss or misery, where you will make your mark or fade down the dull road of routine, we present this edition of Alethea. We do so with the fullest confidence that the time spent during the past four years for your betterment will help you to influence the minds and actions of others, and make possible your march down the road to success. May these pages be to you a recollection of friends, events, and incidents of your college life.

*Editor*

John F. J. Nicoletti

# *Dedication*

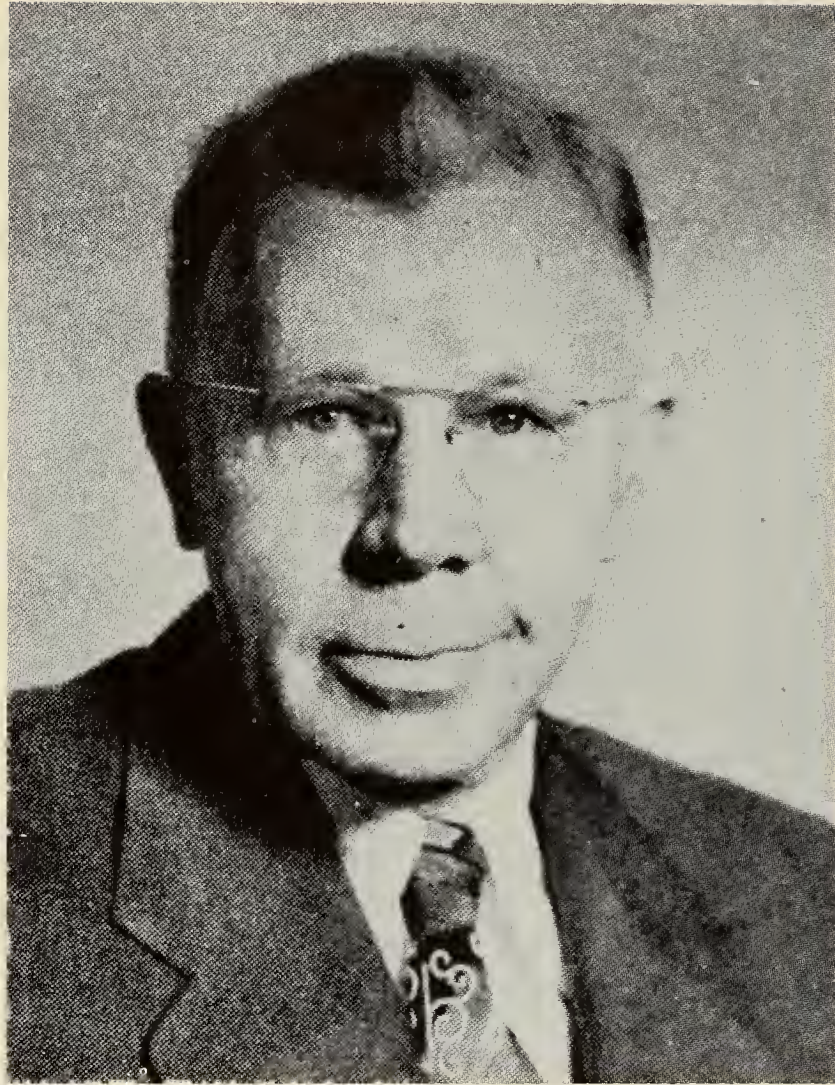

## **DR. SAMUEL A. STONE**

In recognition and appreciation for his unceasing efforts and guidance as friend and advisor, we, the graduating class of 1955, dedicate this yearbook to Dr. Samuel A. Stone.

## *In Memoriam*

**WILLIAM H. WINGATE**

An outstanding teacher, associate and friend, Professor William H. Wingate was beloved by all who knew him. His faithful and self-sacrificing work in behalf of our College and the real sincerity of his life among us, both as an associate and friend, will make his memory precious down through the years.

## *President's Message*

As you become a part of our alumni, the Institute is entering upon the second half century of service to mankind. You have the satisfaction of being the first class to graduate in that period. It is a period in which technologically trained men and women will play a vital role in preserving freedom and democracy for the world. You will assume your responsibilities with the heartening knowledge that you are well prepared to play your part. I have every confidence that you will achieve marked success in your several fields. In so doing, you will win laurels both for yourselves and for your Alma Mater.

**EVERETT S. ARNOLD**

Instructor in Weaving and Warp Preparation, Loom Motions and Fancy Weaving, Jacquard Weaving.

**WALTER J. CASS**

Assistant Professor in German, English Literature and History.

**ROBERT E. COOPER**

Instructor in Physical Testing, Quality Control, Technical Literature, Plant Layout.

**JOHN J. CRAWFORD**

Instructor in Machine Shop, Superintendent of Maintenance.

**FRANK H. DILLON**

Professor in Applied Mechanics, Strength and Materials, Machine Design, Reinforced Concrete, Structural Theory.

**HELEN EATON**

Librarian.

**JOHN W. FERGUSON**

Instructor in Carding, Combing, Drawing, Roving, Spinning, Twisting.

**JOHN GREENHALGH**

Instructor in Screen Printing, Print Styling, Textile Styling, Drawing and Color.

**BERTRAM B. HARDY**

Assistant Professor in Communications, Electrical Measurements, Electronics, Electricity.

**RUDOLPH L. LAVAUT**

Associate Professor in Economics, Psychology.

**HOWARD B. LEIGHTON**

Instructor in Anatomical Drawing, Color and Design, Fabric Styling, Drawing and Painting.

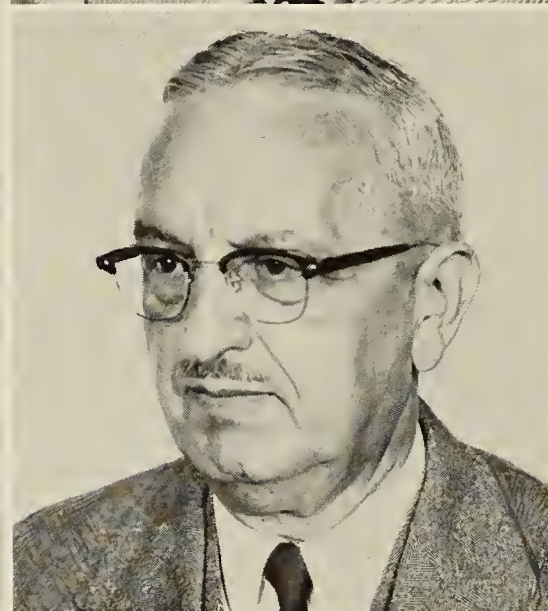

**WALTER E. MARSTON**

Assistant Professor in General Chemistry, Qualitative Analysis, Quantitative Analysis.

**THEODORE P. MEAD**

Assistant Professor in Advertising Design, Lettering, History of Art, Photography.

**CARL MEDDE**

Instructor in Fiber Technology, Dyeing and Finishing.

**JOHN W. NORMAN**

Associate Professor Emeritus in Loom Motions and Fancy Weaving, Jacquard Weaving.

**PAUL J. V. PARENTE**

Instructor in Electrical Engineering.

**GERTA RELLO**

Instructor in Fashion Illustration.

**LOUIS S. J. SIMEONE**

Assistant Professor in College Mathematics, Calculus, College Algebra, Analytical Geometry, Trigonometry.

**ALBERT A. STEWART**

Assistant Professor in Geometry, Physics, Materials, Engineering Drawing.

**JOHN G. STICKLER**

Associate Professor in Textile Designing, Fabric Analysis, Fabric Development, Merchandising and Marketing.

**DR. SAMUEL A. STONE**

Assistant Professor in Physics, Calculus, Differential Equations.

**CLAUDE W. WAGNER**

Assistant Professor in General Chemistry, Unit Processes.

**DR. JAMES W. WATTERS**

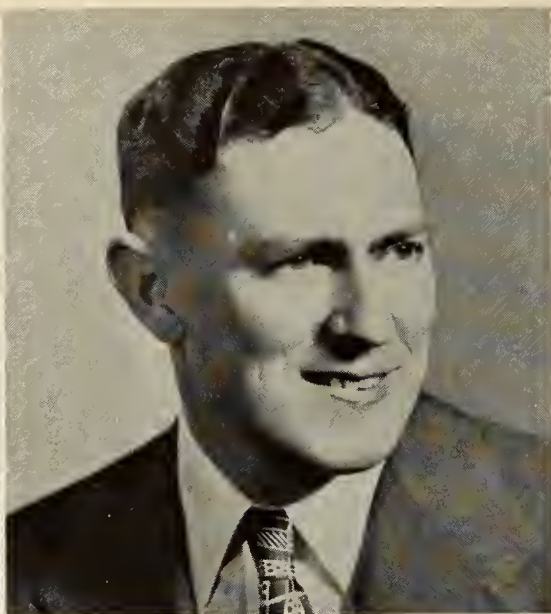

Professor in Organic Chemistry, Technical Literature, Dyes and Pigments, Physical Chemistry.

**WILLIAM WILD**

Instructor in Accounting.

**EUGENE R. WILLIAMS**

Instructor in Thermodynamics, Geology,  
Physics, Combustion Engines, Heat and  
Power.

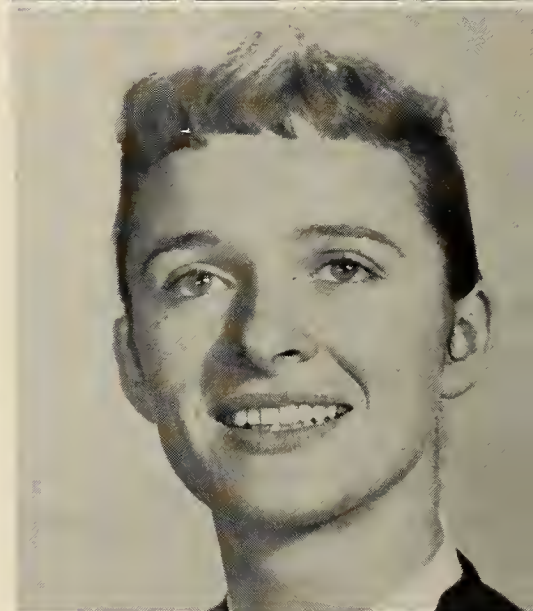

**FREDERICK WINTER**

Assistant Professor in English Composi-  
tion, Public Speaking.

**ELAINE B. ANDRESON**  
Junior Clerk Stenographer

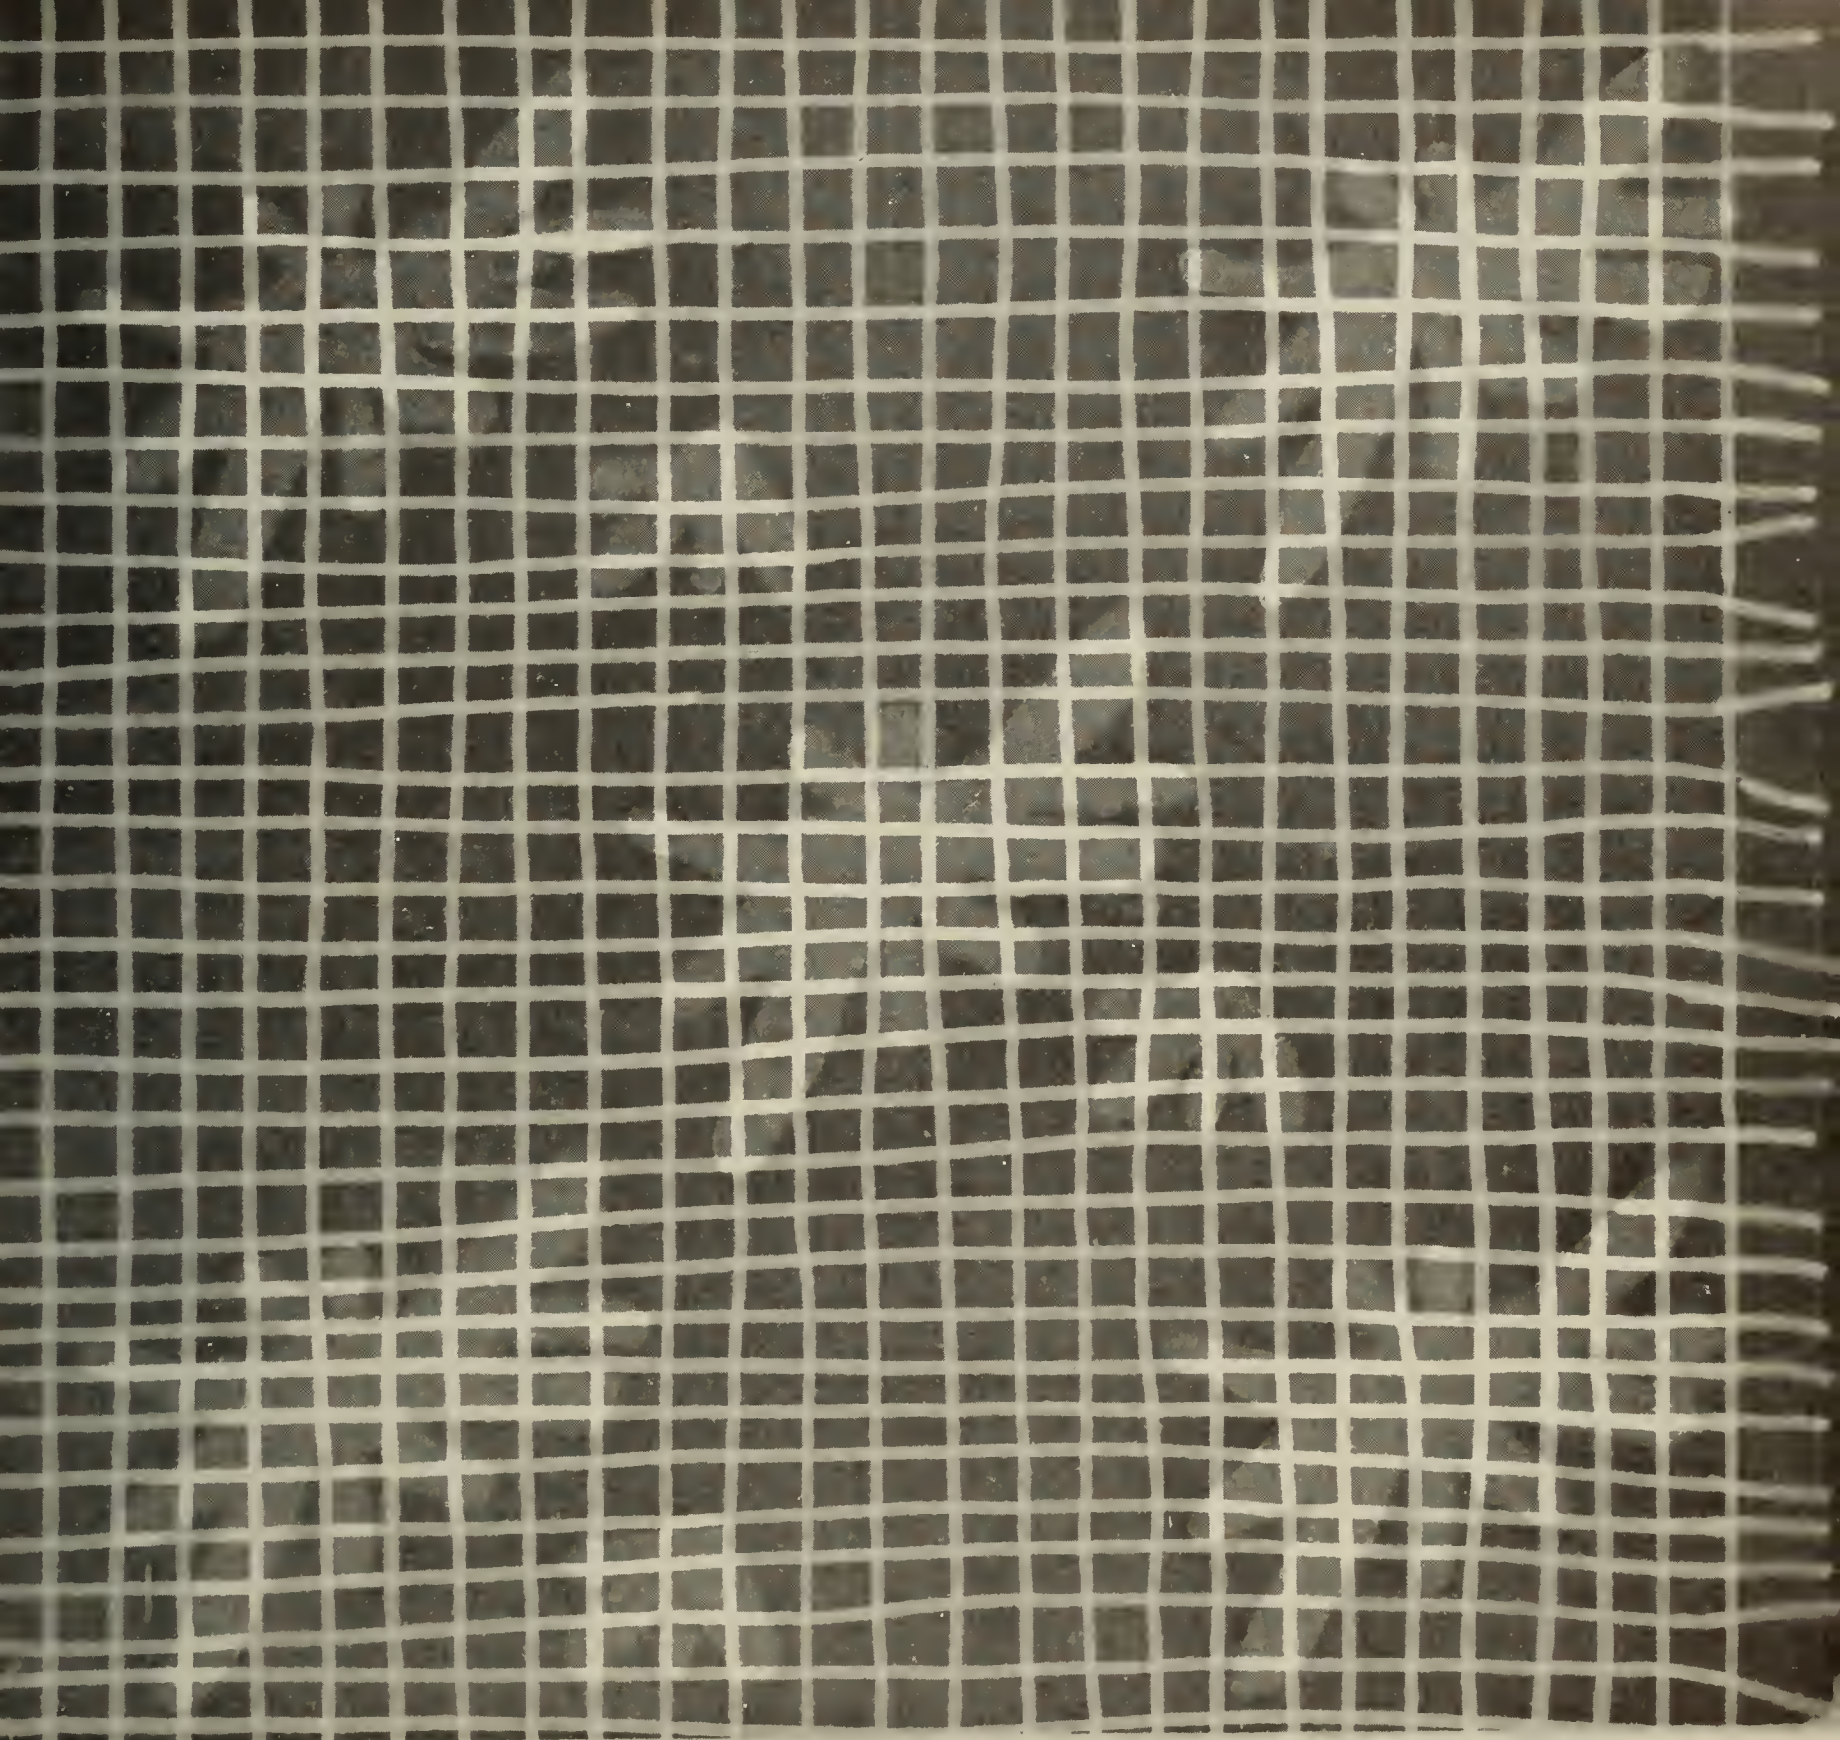

**LORRAINE A. BERUBE**  
Senior Bookkeeper

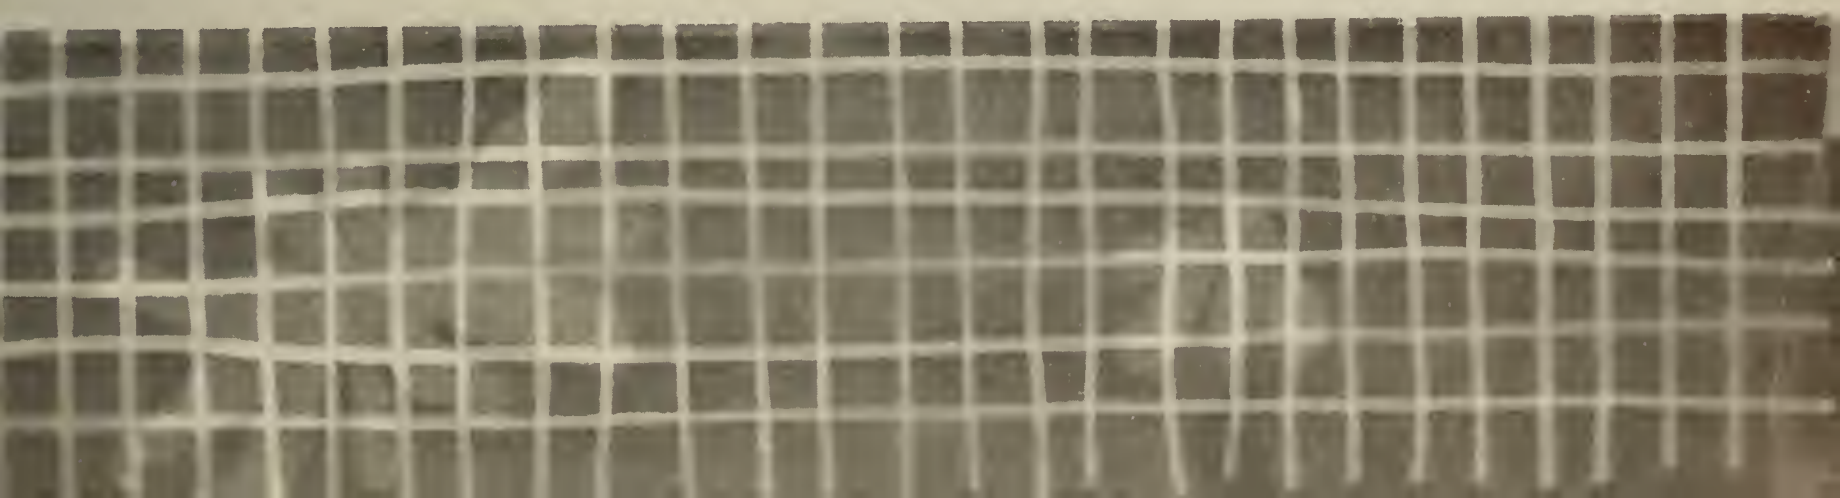

**MARGARET E. MORGAN**  
Accountant Treasurer

## Progress . . . Product of Experience

You found it true during your years of training at Bradford Durfee Technical Institute. You'll find it even more evident as you progress in your career in the textile field.

Progress . . . achievement . . . grow in proportion to your experience, your continuous opportunity to apply your knowledge and talents to everyday *doings!*

The axiom applies equally to companies as to individuals. Such famous dyestuff products as the Solophenyls, Cuprophenyls, Erio Chromes, the revolutionary, new Irgalans and, of course Mitin durable mothproofing were developed as the result of nearly a century of Geigy research in the textile field.

As your own career progresses, you will find it helpful to rely on names like Geigy . . . names which represent *progress through experience!*

Wherever you go . . .

let your **STOWE-WOODWARD** man help you

It's a better than even chance, that you who have special preparatory training will become the textile executives of tomorrow; and because of this, Stowe-Woodward has a genuine interest in you who are graduating.

Long before you reach the position that goes with that big mahogany desk and its inviting swivel chair, you will have learned a good deal about Stowe-Woodward Rubber Covered Rolls and their importance in the textile industry.

When you've arrived, you will also know that Stowe-Woodward is a pretty dependable source of help on any textile problem involving the use of rubber covered rolls. By then, we'll know you, too.

Right now, we'd like to extend congratulations for a good start and our best wishes for your success.

**STOWE-WOODWARD, Inc.**

NEENAH, WISCONSIN - NEWTON 64, MASSACHUSETTS - GRIFFIN, GEORGIA

From mineral colors to synthetic dyes

The Egyptians made the best possible use of the materials available to them, but red ochre has been outmoded for textile application. Today's dyers immediately think of Naphthols for fast reds and the discriminating dyer immediately thinks of Pfister for Fine Naphthols.

  
Pfister Chemical Works  
INC.

Ridgefield, New Jersey

#### VATROLITE

— Concentrated reducing agent for vat dyes and vat color fastness. Removes vat colors and vat color fastness. Faster, clearer, stripping vat colors from cotton and rayon.

**DISCOLITE** — A concentrated reducing agent, highly stable at high temperatures. Outstanding for discharge and vat color printing. Employed successfully wherever the reducing agent must dry into the fabric and retain its reducing power.

**NEOZYME** — Concentrated low temperature desizing enzyme. Removes starch and gelatine. Excellent for eliminating thickeners from printed goods at low temperatures.

**NEOZYME HT** — Concentrated high temperature desizing enzyme. Removes both starch and gelatine. Suitable for continuous pad steam method. Remarkable stability at very high temperatures.

**NEOZYME L & NEOZYME Special** — Liquid desizing enzymes in two degrees of concentration. Remarkable stability at very high temperatures.

**VELVO SOFTENER #25** — Economical creamy white paste softener derived from highly sulphonated tallows. Gives softness and body without stiffness or affecting whites.

**NEOPON** — Surface active compound with excellent detergent qualities with some wetting power. Not affected by hard water. Can be used in acid, neutral or alkaline baths.

**DISPERSALL** — Effective retardant for dyeing vat colors, dispersing and leveling qualities for dyeing naphthol and vat colors, useful in wool and acetate dyeing. Valuable dyeing in stripping vat colors, naphthols.

**NEOWET** — Permits effective wetting at low temperatures. Particularly useful with vat colors, desizing agents. No reaction to hard water. Not affected by either acid or alkali.

**NEOQUEST** — Removes the unwanted color from vat colors, vat color fastness. Removes vat color fastness from cotton and rayon.

**CASTROLITE** — A highly sulphonated castor oil used as a staple penetrant for dyeing or bleaching in leading textile mills.

**VELVORAY** — A blend of vegetable oils and selected fats for a superior non-flaming finishing oil. High in content of SO<sub>2</sub> and stability. Excellent for softening, will not smoke off at high temperatures.
